POLISPORT COMMITMENTS

STAND OUT FROM THE CROWD

Polisport remains true to its principles, focusing on producing quality and innovative products that revolutionize the off-road market. By offering differentiated solutions and excellent service, Polisport aims to be a pioneering company in the plastic replicas and off-road accessories industry. This commitment led Polisport to become the first company to develop and produce IPD technology for OEM brands. This significant achievement opened the door to partnerships with some of the most recognized motorcycle brands, enhancing our role as aftermarket replicas manufacturers.

Innovation and quality are our top priorities, consistently maintained year after year, decade after decade. Our quality of service and technical expertise have enabled us to attract important customers, forging long and stable partnerships in the field of first equipment and customer brands. We are proud to cooperate with the biggest European manufacturers, solidifying our position in the motorcycle industry.

NEW IMAGE TO ACCELERATE THE FUTURE

The new identity aims to reinforce the brand positioning and align the communication with the company's strategy of the past years. Innovation, product excellence, and the brand roots in racing and competition are imprinted in all its products and are, now, also present in the new image.

The new brand's identity balances history and know-how, where red has always been in evidence. The new logo translates the dynamism and modernity of Polispport, through the minimalism and simplicity of the shapes that give life to the new logo. Also positioning the brand in the premium segment of the market.

Pedro Araújo, Polispport's CEO, assumes that this image change reflects "the agility and innovation, in the way we work and in the value proposition, that, as a brand, we were able to offer to our customers."

The legacy will last forever, Preston!

Born in Los Angeles on February 19, 1941, Preston Petty became addicted to dirt bikes early at 13, when he got his first real motorcycle, an Ariel Colt. The passion for whatever motorized was immediate and he started racing anything and everything, from scrambles to flat track, motocross, and the International Six-Day Trials (ISDT), the oldest off-road motorcycle event on the International Motorcycling Federation Calendar.

Preston Petty was one of the first riders in the USA to race Honda motorcycles and he quickly became a leading off-road and motocross racer of the late 1950s through the early 1970s. Petty rode for Team USA in ISDT events and was one of the early proponents of bringing European-style motocross to America.

More than a great rider and passionate about bikes, Preston Petty will be forever remembered for his plastic motorcycle components: fenders, skid plates, hex grips, enduro front fenders, number plates.

But what about his fenders? Preston revolutionized the stigma of the time that plastic was trash when it came to off-road motorcycles and his fenders rapidly became a success during the 1970s. Until then, off-road motorcycles had metal fenders, in steel or aluminum, that was dangerous to ride with and prone to fatigue cracking. Using the five-gallon plastic paint bucket as inspiration, Preston built his own injection-molding equipment and computer control systems and produced the first enduro headlight (now copied on every enduro bike), an innovative plastic skid plate, and the Petty Hex Grip.

Decades later, in 2017, the current owner, Paul Stannard, found in Polisport the quality, attention to detail and care the brand needed to bring Preston Petty Products to another level. Polisport and Preston Petty brands formally announced a partnership for the future. All the Preston Petty products started being produced in Polisport's injection facilities in Portugal and distributed through its worldwide network of distributors.

Polisport CEO and teams had the honor to be close with Preston, for whom they developed a deep friendship, in addition to all the respect and admiration. The sad news that he passed away at the age of 80, on January 16, 2022, made our compromise even greater. We intend to maintain the legacy of its products today and always!

The legend continues...
